IN THE BEGINNING...

The relationship between Blendworth and OSPREY HOME is an organic one.

Working collaboratively with OSPREY HOME to create a collection that reflects their brand ethos whilst celebrating both company's combined British legacies, the Blendworth studio have created an eclectic collection of hand-drawn designs, all inspired by the native natural world and the curiosities within it.

Designs feature intricate prints of British wildlife and taxidermy, nods to antique maps and libraries, alongside patterns inspired by global travel and artisan craft.

Each design is available as both fabric and wallcovering, offering an array of versatile, sophisticated printed cloth and embroideries alongside state-of-the-art digitally printed wallpapers and murals.
